

To the Parents of

Your child recently received a Pamunkey Regional Library card. Welcome to the library!

Whether you are looking for fun or need help with homework, the library has your family covered. Stop by any of our ten branches for fun, free programs for children and teens. The library is a great place to enjoy time as a family because there is something for everyone.

Did your child just tell you about an assignment that is due tomorrow? Don't worry, you can visit the library 24/7 at www.pamunkeylibrary.org. We offer a wide range of eBooks and online resources to help. You don't even need to be in the library to ask a question, you can text, chat, or email a librarian to help you find information.

Save time by placing materials on hold at home using the library catalog. You will receive an email or phone call when your items are ready for pick-up. This is great for families on the go.

We also want to let you know that the library has a longstanding policy of "open access." This means we do not restrict use of library materials by age or format. Children with valid library cards may use every library resource, from computers to books, magazines, movies, and more. When you sign your child's library card application, you accept responsibility for any library material your child uses or checks out from the library.

If you have questions about the library, please call your local branch or (804) 365-6211 or e-mail ask@pamunkeylibrary.org. We are here to help you explore all of these resources and services that your child's new card has to offer.

Sincerely,

A handwritten signature in blue ink that reads "Tom Shepley". The signature is written in a cursive style and is positioned above the printed name.

Tom Shepley
Library Director
